

ENACADEMY BETA LIBRARY

Practical Grammar Workbook

Essential A1-A2 patterns turned into language you can use

Designed for Focused A1-A2 self-study	How to use it Read, say, write, review	Format Downloadable beta edition
---	--	--

This beta book is included to demonstrate ENAcademy's complete digital purchase and delivery workflow. It is original learning material and may be expanded in future releases.

01 Present simple

Use routines and facts accurately.

REAL-LIFE MOMENT

Model: I work from home. She starts at eight. We do not drive on Fridays.

Language to keep

Positive: subject + base verb. Add -s with he, she, or it. Negative: do not / does not + base verb.

Try it yourself

Complete: She ___ (study) at night. They ___ not ___ (eat) early. Write two true examples.

Say every answer aloud once. Fluency grows when written language becomes spoken language.

02 Useful questions

Build questions without losing word order.

REAL-LIFE MOMENT

Model: Where do you live? What does he need? Are they ready?

Language to keep

Use do/does with most present simple verbs. Use am/is/are directly with the verb be.

Try it yourself

Correct these: Where you work? Does she likes tea? They are ready? Then answer each question.

Say every answer aloud once. Fluency grows when written language becomes spoken language.

03 Past events

Tell a short, ordered story.

REAL-LIFE MOMENT

Model: We arrived late, found our seats, and watched the show.

Language to keep

Regular past verbs often end in -ed. Learn common irregular forms: went, saw, had, made, came.

Try it yourself

Write four sentences about yesterday. Use first, then, after that, and finally.

Say every answer aloud once. Fluency grows when written language becomes spoken language.

04 Plans and intentions

Talk about future choices and arrangements.

REAL-LIFE MOMENT

Model: I am going to study tonight. We are meeting Sara at six.

Language to keep

Use be going to for intentions. Use present continuous for a specific arranged time.

Try it yourself

Choose: I am going to / am meeting the dentist at ten. Explain why, then add two plans.

Say every answer aloud once. Fluency grows when written language becomes spoken language.

05 Comparisons

Compare options politely and clearly.

REAL-LIFE MOMENT

Model: This route is faster, but the other one is more comfortable.

Language to keep

Short adjective + -er: faster. Longer adjective: more practical. Irregular: better, worse.

Try it yourself

Compare two cities, two apps, or two ways to study using three comparative sentences.

Say every answer aloud once. Fluency grows when written language becomes spoken language.

06 Present perfect

Connect life experience to the present.

REAL-LIFE MOMENT

Model: I have visited Turkey. She has never tried sushi.

Language to keep

Use have/has + past participle. Do not add a finished time such as yesterday to this pattern.

Try it yourself

Write three Have you ever...? questions. Answer with yes/no and one follow-up detail.

Say every answer aloud once. Fluency grows when written language becomes spoken language.

Answer key and reflection

Chapter 1: studies; do / eat. Chapter 2: Where do you work? Does she like tea? Are they ready? Other chapters are personal production tasks; compare your sentences with the model and check verb form, word order, and time expression.

SELF-CHECK

Can another person understand your meaning immediately? Is the verb form consistent with the time? Did you say the sentence aloud? If yes, the grammar is already becoming usable.

Next step

Use these patterns inside ENAcademy's purchased A1 and A2 courses. Each lesson moves from context to pattern, then from recognition to your own spoken answer.
